SUMMARY

Software engineer specializing in Flutter, with experience across web development. Also skilled in gathering requirements, working with stakeholders, and managing the backlog. Co-founded a clothing brand, making product decisions based on customer demand. PSPO I, PSM I certified.

EXPERIENCE

Frontend Developer
02/2025 – Present

Muvi Cinemas

- Rebuilt the cinema booking app from scratch in Flutter, replacing two native apps.
- Reconstructed undocumented requirements by tracing the app and asking IT and business stakeholders.
- Created and prioritized my own backlog, writing user stories to define behavior for each user flow.
- Built an internal dashboard used by IT to monitor transactions and catch data errors across 23 branches.
- Delivered in-seat ordering for suite guests end to end, from menu to seat.
- Developed a customer feedback platform capturing post-visit ratings from guests.

Co-Founder
05/2021 – 05/2025

VEGA Styles

- Shipped 12 collections online and in person, deciding what to produce based on demand and co-founders' input.
- Used samples to catch problems early, changing fabric, color, and print specs before full production.

Angular Developer
03/2022 – 09/2022

Jameel — Tamheer program

- Improved an operations dashboard for monitoring captain activity, redesigning layouts to surface more data.
- Reduced the clicks needed for common tasks, helping the operations team spot issues faster during a shift.
